Item 2.02. Results of Operations and Financial Condition.

In accordance with Item 2.02 of Form 8-K of the Securities and Exchange Commission (the "SEC"), Wal-Mart Stores, Inc., a Delaware corporation (the "Company"), is furnishing to the SEC a press release that the Company will issue on November 16, 2017 (the "Press Release") and a financial presentation that will be first posted by the Company on the Company's website at <http://stock.walmart.com> on November 16, 2017 (the "Financial Presentation"). The Press Release and the Financial Presentation will disclose information regarding the Company's results of operations for the three and nine months ended October 31, 2017, and the Company's financial condition as of October 31, 2017.

In accordance with General Instruction B.2 of Form 8-K, the information in this Item 2.02 of this Current Report on Form 8-K, including Exhibits 99.1 and 99.2 hereto, which are furnished herewith pursuant to and relate to this Item 2.02, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise be subject to the liabilities of Section 18 of the Exchange Act. The information in this Item 2.02 of this Current Report on Form 8-K and Exhibits 99.1 and 99.2 hereto shall not be incorporated by reference into any filing or other document filed by the Company with the SEC pursuant to the Securities Act of 1933, as amended, the rules and regulations of the SEC thereunder, the Exchange Act, or the rules and regulations of the SEC thereunder, except as shall be expressly set forth by specific reference in such filing or document.

Item 8.01. Other Information.

As previously disclosed, the Company has been cooperating with the U. S. Department of Justice and the U.S. Securities and Exchange Commission with respect to their investigations regarding possible violations of the U. S. Foreign Corrupt Practices Act and there have been ongoing discussions regarding the possible resolution of these matters with the government agencies. These discussions have progressed to a point that the Company can now reasonably estimate a probable loss and has recorded an aggregate accrual of \$283 million with respect to these matters. As the discussions are continuing, there can be no assurance that the Company's efforts to reach a final resolution with the government agencies will be successful or, if they are, what the timing or terms of such resolution will be.

Item 9.01. Financial Statements and Exhibits.

Forward-Looking Statements

This release contains statements as to Walmart management's guidance regarding earnings per share and adjusted earnings per share for the fiscal year ending January 31, 2018, and Walmart U.S.'s comparable sales and Sam's Club's comparable sales, excluding fuel, for the 13 weeks ending January 26, 2018. Walmart believes such statements are "forward-looking statements" as defined in, and are intended to enjoy the protection of the safe harbor for forward-looking statements provided by, the Private Securities Litigation Reform Act of 1995, as amended. Assumptions on which such forward-looking statements are based are also forward-looking statements. Walmart's actual results may differ materially from the guidance provided as a result of changes in circumstances, assumptions not being realized or other risks, uncertainties and factors including:

- economic, geo-political, capital markets and business conditions, trends and events around the world and in the markets in which Walmart operates;
- currency exchange rate fluctuations, changes in market interest rates and commodity prices;
- unemployment levels;
- competitive pressures;
- inflation or deflation, generally and in particular product categories;
- consumer confidence, disposable income, credit availability, spending levels, shopping patterns, debt levels and demand for certain merchandise;
- consumer enrollment in health and drug insurance programs and such programs' reimbursement rates;
- the amount of Walmart's net sales denominated in the U.S. dollar and various foreign currencies;
- the impact of acquisitions, divestitures, store or club closures, and other strategic decisions;
- Walmart's ability to successfully integrate acquired businesses, including within the e-commerce space;
- Walmart's effective tax rate and the factors affecting Walmart's effective tax rate, including assessments of certain tax contingencies, valuation allowances, changes in law, administrative audit outcomes, impact of discrete items and the mix of earnings between the U.S. and Walmart's international operations;
- customer traffic and average ticket in Walmart's stores and clubs and on its e-commerce websites;
- the mix of merchandise Walmart sells, the cost of goods it sells and the shrinkage it experiences;
- the amount of Walmart's total sales and operating expenses in the various markets in which it operates;
- transportation, energy and utility costs and the selling prices of gasoline and diesel fuel;
- supply chain disruptions and disruptions in seasonal buying patterns;
- consumer acceptance of and response to Walmart's stores, clubs, e-commerce websites, mobile apps, initiatives, programs and merchandise offerings;
- cyber security events affecting Walmart and related costs;
- developments in, outcomes of, and costs incurred in legal or regulatory proceedings to which Walmart is a party;
- casualty and accident-related costs and insurance costs;
- the turnover in Walmart's workforce and labor costs, including healthcare and other benefit costs;
- changes in accounting estimates or judgments;
- changes in existing tax, labor and other laws and regulations and changes in tax rates, trade agreements, trade restrictions and tariff rates;
- the level of public assistance payments;
- natural disasters, public health emergencies, civil disturbances, and terrorist attacks; and
- Walmart's expenditures for FCPA and other compliance related costs, including the adequacy of the accrual with respect to this matter made in the third quarter of the fiscal year ending January 31, 2018.

Such risks, uncertainties and factors also include the risks relating to our operations and financial performance discussed in our filings with the SEC. You should read this release in conjunction with our Annual Report on Form 10-K for the year ended January 31, 2017, and our subsequently filed Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. You should consider all of the risks, uncertainties and other factors identified above and in those SEC reports carefully when evaluating the forward-looking statements in this release. We cannot assure you that the future results reflected in or implied by any such forward-looking statement will be realized or, even if substantially realized, will have the forecasted or expected consequences and effects for or on our operations or financial performance. Such forward-looking statements are made as of the date of this release, and Walmart undertakes no obligation to update such statements to reflect subsequent events or circumstances.

Wal-Mart Stores, Inc.**Reconciliations of and Other Information Regarding Non-GAAP Financial Measures
(Unaudited)**

The following information provides reconciliations of certain non-GAAP financial measures presented in the press release to which this reconciliation is attached to the most directly comparable financial measures calculated and presented in accordance with generally accepted accounting principles (GAAP). The company has provided the non-GAAP financial information presented in the press release, which is not calculated or presented in accordance with GAAP, as information supplemental and in addition to the financial measures presented in the press release that are calculated and presented in accordance with GAAP. Such non-GAAP financial measures should not be considered superior to, as a substitute for or alternative to, and should be considered in conjunction with, the GAAP financial measures presented in the press release. The non-GAAP financial measures in the press release may differ from similar measures used by other companies.

Free Cash Flow

We define free cash flow as net cash provided by operating activities in a period minus payments for property and equipment made in that period. We had net cash provided by operating activities of \$17.1 billion and \$19.8 billion for the nine months ended October 31, 2017 and 2016, respectively. We generated free cash flow of \$10.2 billion and \$12.3 billion for the nine months ended October 31, 2017 and 2016, respectively. The decreases in net cash provided by operating activities and free cash flow were due to the timing of payments and an increase in incentive payments, as well as lapping prior year's improvements in working capital management.

Free cash flow is considered a non-GAAP financial measure. Management believes, however, that free cash flow, which measures our ability to generate additional cash from our business operations, is an important financial measure for use in evaluating the company's financial performance. Free cash flow should be considered in addition to, rather than as a substitute for, consolidated net income as a measure of our performance and net cash provided by operating activities as a measure of our liquidity.

Additionally, Walmart's definition of free cash flow is limited, in that it does not represent residual cash flows available for discretionary expenditures, due to the fact that the measure does not deduct the payments required for debt service and other contractual obligations or payments made for business acquisitions. Therefore, we believe it is important to view free cash flow as a measure that provides supplemental information to our Consolidated Statements of Cash Flows.

Although other companies report their free cash flow, numerous methods may exist for calculating a company's free cash flow. As a result, the method used by Walmart's management to calculate our free cash flow may differ from the methods used by other companies to calculate their free cash flow.

The following table sets forth a reconciliation of free cash flow, a non-GAAP financial measure, to net cash provided by operating activities, which we believe to be the GAAP financial measure most directly comparable to free cash flow, as well as information regarding net cash used in investing activities and net cash used in financing activities.

² "Net cash used in investing activities" includes payments for property and equipment, which is also included in our computation of free cash flow.

Constant Currency

In discussing our operating results, the term currency exchange rates refers to the currency exchange rates we use to convert the operating results for all countries where the functional currency is not the U.S. dollar ("non-USD entities") into U.S. dollars. We calculate the effect of changes in currency exchange rates as the difference between current period activity translated using the current period's currency exchange rates, and the comparable prior year period's currency exchange rates. Throughout our discussion, we refer to the results of this calculation as the impact of currency exchange rate fluctuations. When we refer to constant currency operating results, this means operating results without the impact of the currency exchange rate fluctuations and without the impact of acquisitions of non-USD entities, if any, until such acquisitions are included in both comparable periods. The disclosure of constant currency amounts or results permits investors to better understand Walmart's underlying performance without the effects of currency exchange rate fluctuations of non-USD entities.

The table below reflects the calculation of constant currency for total revenues, net sales and operating income for the three and nine months ended October 31, 2017 .

Adjusted EPS

The adjusted diluted earnings per share from continuing operations attributable to Walmart (Adjusted EPS) for the three-month period ended October 31, 2017 is considered a non-GAAP financial measure under the SEC's rules because the Adjusted EPS for each such period excludes certain amounts not excluded in the diluted earnings per share from continuing operations attributable to Walmart calculated in accordance with GAAP (EPS) for such period. Management believes that the Adjusted EPS for the three-month period ended October 31, 2017 is a meaningful measure to share with investors because that measure, which adjusts EPS for such period for certain items recorded in such period, is the measure that best allows comparison of the performance for the comparable period. In addition, the measure affords investors a view of what management considers Walmart's core earnings performance for the three-month period ended October 31, 2017 and also affords investors the ability to make a more informed assessment of such core earnings performance for the comparable period.

We have calculated Adjusted EPS for the three months ended October 31, 2017 by adjusting EPS for the following: (1) the loss on the early extinguishment of certain debt, (2) the FCPA accrual based on discussions with government agencies regarding the possible resolution of the FCPA matter and (3) the impairment of certain properties due to our decision to exit those properties in one of our international markets. Adjusted EPS for the three months ended October 31, 2017 is a non-GAAP financial measure. The most directly comparable financial measure calculated in accordance with GAAP is EPS for the three months ended October 31, 2017 .

Three Months Ended October 31, 2017			
Diluted earnings per share:			
Reported EPS			\$0.58
Adjustments:			
	Pre-Tax Impact	Tax Impact ¹	Net Impact

Net adjustments			\$0.42
Adjusted EPS			\$1.00

¹ Calculated based on nature of item and statutory rate in effect for relevant jurisdiction.

Adjusted EPS Guidance

Adjusted EPS Guidance is considered a non-GAAP financial measure. Management believes that Adjusted EPS Guidance for Fiscal 2018 is a meaningful metric to share with investors because that metric, which adjusts EPS for certain items to be recorded in the period, is the metric that best allows comparison of the expected performance for Fiscal 2018 to the comparable prior period. In addition, the metric affords investors a view of what management is forecasting for Walmart's core earnings performance for Fiscal 2018 and also affords investors the ability to make a more informed assessment of the core earnings performance for the comparable period.

We have calculated Adjusted EPS Guidance for Fiscal 2018 by adjusting for the amount of the impact of: (1) the loss on the early extinguishment of certain debt, (2) the FCPA accrual based on discussions with government agencies regarding the possible resolution of the FCPA matter, (3) the gain on the sale of Suburbia in Mexico and (4) the impairment of certain properties due to our decision to exit those properties in one of our international markets.

Fiscal 2018				
Diluted net income per share:				
Forecasted EPS				\$3.84 - \$3.92
Adjustments:	Pre-Tax Impact	Tax Impact ¹	NCI Impact ²	Net Impact
Loss on Early Extinguishment of Debt	\$0.71	-\$0.25	\$—	\$0.46

Impairment of Certain International Properties	0.05	-0.01	—	0.04
Net adjustments				\$0.54
Adjusted EPS Guidance				\$4.38 - \$4.46

¹ Calculated based on nature of item and statutory rate in effect for relevant jurisdiction.

² Calculated based on the ownership percentages of the noncontrolling interest at Walmex.

Comparable Sales Measures Excluding Fuel

The comparable sales of the company's Walmart U.S. and Sam's Club operating segments for the 13-week period ended October 27, 2017, and October 28, 2016, and our guidance for comparable sales for the 13-week period ending January 26, 2018, in each case calculated or forecasted by excluding fuel sales for such periods (the "Comparable Sales Measures Excluding Fuel"), are non-GAAP financial measures as defined by the SEC's rules. We believe the most directly comparable financial measures computed in accordance with GAAP are the comparable sales calculated by including fuel sales for the corresponding periods.

We believe that the presentation of the Comparable Sales Measures Excluding Fuel provides useful information to investors regarding the company's financial condition and results of operations because that information permits investors to understand the effect of the fuel sales, which are affected by the volatility of fuel prices, on Walmart U.S. and Sam's Club's comparable sales for the periods presented.

Q3 FY18

Safe harbor and non-GAAP measures

This presentation contains statements as to Walmart management's guidance regarding earnings per share and adjusted earnings per share for the fiscal year ending January 31, 2018, Walmart U.S.'s comparable sales and Sam's Club's comparable sales, excluding fuel, for the 13-week period ending January 26, 2018, and the third-party FCPA- and compliance-related expenses expected to be incurred for the year ending January 31, 2018. Assumptions on which such forward-looking statements are based, including without limitation assumptions regarding our effective tax rate for the year ending January 31, 2018, are also forward-looking statements. Walmart believes such statements are "forward-looking statements" as defined in, and are intended to enjoy the protection of the safe harbor for such statements provided by, the Private Securities Litigation Reform Act of 1995, as amended. Walmart's actual results may differ materially from the guidance provided as a result of changes in circumstances, assumptions not being realized or other risks, uncertainties and factors including:

- economic, geo-political, capital markets and business conditions, trends and events around the world and in the markets in which Walmart operates;
- currency exchange rate fluctuations, changes in market interest rates and commodity prices;
- unemployment levels;
- competitive pressures;
- inflation or deflation, generally and in particular product categories;
- consumer confidence, disposable income, credit availability, spending levels, shopping patterns, debt levels and demand for certain merchandise;
- consumer enrollment in health and drug insurance programs and such programs' reimbursement rates;
- the amount of Walmart's net sales denominated in the U.S. dollar and various foreign currencies;
- the impact of acquisitions, divestitures, store or club closures, and other strategic decisions;
- Walmart's ability to successfully integrate acquired businesses, including within the e-commerce space;
- Walmart's effective tax rate and the factors affecting Walmart's effective tax rate, including assessments of certain tax contingencies, valuation allowances, changes in law, administrative audit outcomes, impact of discrete items and the mix of earnings between the U.S. and Walmart's international operations;
- customer traffic and average ticket in Walmart's stores and clubs and on its e-commerce websites;
- the mix of merchandise Walmart sells, the cost of goods it sells and the shrinkage it experiences;
- the amount of Walmart's total sales and operating expenses in the various markets in which it operates;
- transportation, energy and utility costs and the selling prices of gasoline and diesel fuel;
- supply chain disruptions and disruptions in seasonal buying patterns;
- consumer acceptance of and response to Walmart's stores, clubs, e-commerce websites, mobile apps, initiatives, programs and merchandise offerings;
- cyber security events affecting Walmart and related costs;
- developments in, outcomes of, and costs incurred in legal or regulatory proceedings to which Walmart is a party;
- casualty and accident-related costs and insurance costs;
- the turnover in Walmart's workforce and labor costs, including healthcare and other benefit costs;
- changes in accounting estimates or judgments;
- changes in existing tax, labor and other laws and regulations and changes in tax rates, trade agreements, trade restrictions and tariff rates;
- the level of public assistance payments;
- natural disasters, public health emergencies, civil disturbances, and terrorist attacks; and
- Walmart's expenditures for FCPA and other compliance related costs, including the adequacy of the accrual with respect to this matter made in the third quarter of the fiscal year ending January 31, 2018.

Such risks, uncertainties and factors also include the risks relating to Walmart's strategy, operations and performance and the financial, legal, tax, regulatory, compliance and other risks discussed in Walmart's most recent annual report on Form 10-K and subsequently filed quarterly reports on Form 10-Q filed with the SEC. You should read this presentation in conjunction with such reports. You should consider all of the risks, uncertainties and other factors identified above and in those SEC reports and Current Reports on Form 8-K carefully when evaluating the forward looking statements in this presentation. Walmart cannot assure you that the future results reflected in or implied by any such forward-looking statement will be realized or, even if substantially realized, will have the forecasted or expected consequences and effects for or on Walmart's operations or financial performance. Such forward-looking statements are made as of the date of this presentation, and Walmart undertakes no obligation to update such statements to reflect subsequent events or circumstances.

This presentation includes certain non-GAAP measures as defined under SEC rules, including net sales, revenue, and operating income on a constant currency basis, comp sales excluding fuel, free cash flow and return on investment. Refer to information about the non-GAAP measures contained in this presentation. Additional information as required by Regulation G and Item 10(e) of Regulation S-K regarding non-GAAP measures can be found in our most recent Form 10-K and our Form 8-K furnished as of the date of this presentation with the SEC, which are available at www.stock.walmart.com.

Walmart U.S. - quarterly financial highlights

Sales

- Net sales increased 4.3%, or approximately \$3.2 billion.
- Comp sales¹ increased 2.7% led by a strong comp traffic of 1.5%. eCommerce contributed approximately 80 basis points to segment comp sales growth. Hurricane-related impacts benefited comp sales by approximately 30-50 basis points. On a 2-year stack basis, comp sales and traffic were up 3.9% and 2.2%, respectively.
- Strong performance in food categories continued with comp sales, traffic and unit growth across categories.
- Market inflation in food for the third quarter was around or slightly less than the second quarter.
- Strong growth in multi-channel sales continued in the quarter, including online grocery and general merchandise pickup in store.

Gross Margin

- Gross margin rate declined 36 basis points in the quarter. The margin rate was pressured by the continued execution of our price investment strategy and the mix effects from our growing eCommerce business. In addition, we estimate that hurricane-related impacts contributed to about one-third of the overall decline.

Expenses

- Segment operating expenses leveraged 10 basis points, despite hurricane-related expenses. Physical stores leveraged expenses for the 3rd consecutive quarter and were partially offset by investments in eCommerce and technology.

Inventory

- Total inventory was flat versus last year and comp store inventory declined approximately 3.5%, while in-stock levels remained high.

Format growth

- We opened 2 Supercenters and 2 Neighborhood Markets in the period. We also remodeled 208 stores.
- As of the end of Q3, online grocery was offered in over 1,100 locations, which represents more than 200 additional locations since Q2.

¹ Comp sales for the 13-week period ended October 27, 2017, excluding fuel. Including fuel, Walmart U.S. comparable sales grew 2.8%. See press release located at www.stock.walmart.com and reconciliations at the end of this presentation regarding non-GAAP financial measures.

Walmart U.S. - quarterly merchandise highlights

Category	Comp	Comments
Grocery ¹	+ low single-digit	Food and consumables had solid comp sales driven by strong customer traffic, increased innovation, and improvement in private brands. Strength was broad-based across categories, with fresh foods particularly strong driven by improvements in assortment, quality and price. Market inflation in food for the third quarter was around or slightly less than the second quarter.
Health & wellness	+ mid single-digit	Customer traffic, branded drug inflation and script growth contributed to strong performances in pharmacy and over-the-counter.
General merchandise ²	+ low single-digit	Newness and private brands contributed to comp sales and traffic improvement. Ladies apparel, shoes, home, toys and automotive had especially strong results. Entertainment sales were soft.

¹ Includes food and consumables.

² General merchandise includes entertainment, toys, hardlines, apparel, home and seasonal.

Walmart International - quarterly financial highlights

Sales

- Net sales on a constant currency basis increased 2.5 percent.
 - Reported net sales increased 4.1 percent, which included a benefit of approximately \$450 million from currency.
- The divestitures of Suburbia and Yihaodian created a headwind to sales of nearly \$560 million when compared to last year.
- Ten of 11 markets delivered positive comp sales.

Gross Margin

- Gross margin rate declined 18 basis points primarily driven by planned price investments in certain markets.

Operating income

- Operating income declined 12.2 percent on a constant currency basis and 7.8 percent on a reported basis.
 - The decrease in operating income is due to the ~\$150 million impairment related to our decision to exit certain properties in one of our markets as well as lapping last year's gain of \$86 million from the sale of several shopping malls in Chile.

Inventory

- During the quarter, inventory grew slower than sales.

⁵ Walmex includes the consolidated results of Mexico and Central America. Excluding Suburbia net sales of \$165 million in the comparable prior year period would result in an increase in Walmex net sales of 9.2% for the quarter.

Walmart International - key market quarterly highlights

Walmex

- Net sales increased 6.6 percent and comp sales increased 7.0 percent. Normalizing for Suburbia sales last year, net sales would have increased 9.2 percent.
- Operating income grew at a faster rate than sales.
- In Mexico specifically, comp sales increased 7.2 percent in the quarter or 14.5 percent on a two-year stacked basis, and all of our merchandise divisions continued to outpace ANTAD self-service.
- In Mexico, the strongest performance came from Sam's Club followed by the Walmart Supercenter format.
- Net sales in Central America increased 11.2 percent, and all countries delivered positive comp sales.

Canada

- Net sales increased 1.9 percent while comp sales increased 1.0 percent.
- We gained 30 basis points of market share for the 12-week period ended September 30, according to Nielsen.
- Gross profit rate declined primarily driven by planned price investments.
- Inventory levels decreased even as sales increased 1.9 percent.

¹ ANTAD - Asociación Nacional de Tiendas de Autoservicio y Departamentales; The National Association of Supermarkets and Department Stores

Walmart International - key market quarterly highlights

U.K.

- Net sales increased 3.6 percent, while comp sales increased 1.1 percent.
- We continued to see improved results as customers responded to investments in the value proposition.
- During the quarter, we experienced improved in-store service scores and performance strengthened across our private brand and online grocery offerings.
- Gross profit rate declined primarily driven by commodity price headwinds as well as on-going price investments.
- We leveraged operating expenses during the quarter through sales growth and continued cost control.

China

- Net sales increased 4.0 percent while comp sales increased 2.5 percent.
- The solid sales performance was primarily driven by strong seasonal categories during the Mid-Autumn Festival and continued strength across our fresh and consumables categories.
- Operating income grew at a faster rate than sales.
- During the quarter, we continued to focus on driving efficiency, reducing expenses and strengthening our portfolio through 'We Operate for Less' and 'We Buy for Less' initiatives.
- Approximately 140 Walmart stores now offer grocery delivery through JD Daojia.
- During the quarter we launched the Walmart – JD Omni Channel Shopping Festival.

Sam's Club - quarterly financial highlights

Sales

- Comp sales¹ for the period increased 2.8% with growth in comp traffic of 3.6%. The company estimates a benefit to comp sales of approximately 70 to 90 basis points from recent hurricanes.
- Market inflation in food positively impacted comp sales by approximately 70 basis points.
- In eCommerce, both Club Pickup and the direct to home business continued to have strong results.

Gross Profit

- Excluding fuel, gross profit rate declined 21 basis points. Consistent with previous quarters, certain fresh supply expenses were reclassified from operating expenses to cost of goods sold. In addition, we estimate that hurricane-related impacts contributed to about half of the overall decline. Gross profit was also impacted by higher shrink, investment in cash rewards and increased shipping costs at Samsclub.com.

Operating Expenses

- Operating expenses leveraged 41 basis points, primarily due to sales growth, the reclassification of certain fresh supply expenses to cost of goods sold and lower advertising costs.

Membership Income

- Membership income increased 0.9% versus last year. Plus penetration increased 77 basis points.

Inventory

- Inventory decreased 1.0%, and inventory at comp clubs decreased 3.5%.

¹ Excludes fuel. See press release located at www.stock.walmart.com and reconciliations at the end of this presentation regarding non-GAAP financial measures.

Sam's Club - quarterly category highlights

Category	Comp	Comments
Fresh / Freezer / Cooler	+ mid single-digit	Strong performance in fresh meat, produce, bakery and prepared foods.
Grocery and beverage	+ low single-digit	Water, breakfast bars and an expanded premium assortment in certain categories delivered positive growth. Member's Mark penetration increased across multiple categories.
Consumables	+ mid single-digit	Strong performance in Member's Mark items, especially in paper products and food service.
Home and apparel	+ high single-digit	Tires, home improvement, kitchen electrics, as well as apparel and seasonal categories delivered strong results.
Technology, office and entertainment	- low single-digit	Soft sales in televisions and smart phones were the primary contributors of the decline.
Health and wellness	+ mid single-digit	Nutrition and protein drinks performed well, along with momentum in generic script counts.
Tobacco	Slightly positive	Tobacco slightly positive.

Third-party FCPA- and compliance-related expenses

Ongoing inquiries and investigations	\$2	\$24	\$22	\$68
Global compliance program and organizational enhancements	3	5	11	14
Total	\$5	\$29	\$33	\$82

- In fiscal year 2018, we expect our third party FCPA- and compliance-related expenses to range between \$50 and \$60 million. These amounts are included in our Corporate and support expenses. These amounts exclude the accrual made in the third quarter of FY18.

Non-GAAP measures - ROI

We include Return on Assets ("ROA"), which is calculated in accordance with generally accepted accounting principles in the U.S. ("GAAP") as well as Return on Investment ("ROI") as measures to assess returns on assets. Management believes ROI is a meaningful measure to share with investors because it helps investors assess how effectively Walmart is deploying its assets. Trends in ROI can fluctuate over time as management balances long-term potential strategic initiatives with possible short-term impacts. We consider ROA to be the financial measure computed in accordance with GAAP that is the most directly comparable financial measure to our calculation of ROI.

ROA was 5.8 percent and 7.3 percent for the trailing twelve months ended October 31, 2017 and 2016, respectively. ROI was 14.7 percent and 15.0 percent for the trailing twelve months ended October 31, 2017 and 2016, respectively. The decline in ROA was primarily due to the loss on extinguishment of debt and the decrease in operating income. The decline in ROI was primarily due to the decrease in operating income.

We define ROI as adjusted operating income (operating income plus interest income, depreciation and amortization, and rent expense) for the trailing 12 months divided by average invested capital during that period. We consider average invested capital to be the average of our beginning and ending total assets, plus average accumulated depreciation and average amortization, less average accounts payable and average accrued liabilities for that period, plus a rent factor equal to the rent for the fiscal year or trailing 12 months multiplied by a factor of 8. When we have discontinued operations, we exclude the impact of the discontinued operations.

Our calculation of ROI is considered a non-GAAP financial measure because we calculate ROI using financial measures that exclude and include amounts that are included and excluded in the most directly comparable GAAP financial measure. For example, we exclude the impact of depreciation and amortization from our reported operating income in calculating the numerator of our calculation of ROI. In addition, we include a factor of 8 for rent expense that estimates the hypothetical capitalization of our operating leases. As mentioned above, we consider return on assets to be the financial measure computed in accordance with generally accepted accounting principles most directly comparable to our calculation of ROI. ROI differs from ROA (which is consolidated net income for the period divided by average total assets for the period) because ROI: adjusts operating income to exclude certain expense items and adds interest income; adjusts total assets for the impact of accumulated depreciation and amortization, accounts payable and accrued liabilities; and incorporates a factor of rent to arrive at total invested capital. Because of the adjustments mentioned above, we believe ROI more accurately measures how we are deploying our key assets and is more meaningful to investors than ROA.

Although ROI is a standard financial measure, numerous methods exist for calculating a company's ROI. As a result, the method used by management to calculate our ROI may differ from the methods used by other companies to calculate their ROI.

Non-GAAP measures - free cash flow

We define free cash flow as net cash provided by operating activities in a period minus payments for property and equipment made in that period. We had net cash provided by operating activities of \$17.1 billion and \$19.8 billion for the nine months ended October 31, 2017 and 2016, respectively. We generated free cash flow of \$10.2 billion and \$12.3 billion for the nine months ended October 31, 2017 and 2016, respectively. The decreases in net cash provided by operating activities and free cash flow were due to the timing of payments and an increase in incentive payments, as well as lapsing prior year's improvements in working capital management.

Free cash flow is considered a non-GAAP financial measure. Management believes, however, that free cash flow, which measures our ability to generate additional cash from our business operations, is an important financial measure for use in evaluating the company's financial performance. Free cash flow should be considered in addition to, rather than as a substitute for, consolidated net income as a measure of our performance and net cash provided by operating activities as a measure of our liquidity. Additionally, Walmart's definition of free cash flow is limited, in that it does not represent residual cash flows available for discretionary expenditures, due to the fact that the measure does not deduct the payments required for debt service and other contractual obligations or payments made for business acquisitions. Therefore, we believe it is important to view free cash flow as a measure that provides supplemental information to our Consolidated Statements of Cash Flows.

The following table sets forth a reconciliation of free cash flow, a non-GAAP financial measure, to net cash provided by operating activities, which we believe to be the GAAP financial measure most directly comparable to free cash flow, as well as information regarding net cash used in investing activities and net cash used in financing activities.

Non-GAAP measures - constant currency

In discussing our operating results, the term currency exchange rates refers to the currency exchange rates we use to convert the operating results for all countries where the functional currency is not the U.S. dollar ("non-USD entities") into U.S. dollars. We calculate the effect of changes in currency exchange rates as the difference between current period activity translated using the current period's currency exchange rates, and the comparable prior year period's currency exchange rates. Throughout our discussion, we refer to the results of this calculation as the impact of currency exchange rate fluctuations. When we refer to constant currency operating results, this means operating results without the impact of the currency exchange rate fluctuations and without the impact of acquisitions of non-USD entities, if any, until such acquisitions are included in both comparable periods. The disclosure of constant currency amounts or results permits investors to better understand Walmart's underlying performance without the effects of currency exchange rate fluctuations of non-USD entities.

The table below reflects the calculation of constant currency for total revenues, net sales and operating income for the three and nine months ended October 31, 2017.

Non-GAAP measures - fuel impact

The net sales, gross profit rate and operating income of Sam's Club for the three and nine months ended October 31, 2017, the percentage changes in those financial measures from the respective comparable prior year period, comparable sales of Sam's Club and Walmart U.S. for the 13-week and 39-week periods ended October 27, 2017 and projected comparable sales for the 13-week period ending January 26, 2018, in each case calculated by excluding fuel sales for such periods, are non-GAAP financial measures. We believe the net sales, gross profit rate and operating income for the three and nine months ended October 31, 2017, the percentage changes in those financial measures from the respective comparable prior year period, comparable sales for the 13-week and 39-week periods ended October 27, 2017, and projected comparable sales for the 13-week period ending January 26, 2018, in each case calculated by including fuel sales for such period, are, respectively, the financial measures computed in accordance with GAAP most directly comparable to the non-GAAP financial measures described above.

We believe that the presentation of the non-GAAP financial measures with respect to Sam's Club and Walmart U.S. described above provides useful information to investors regarding Walmart's financial condition and results of operations because that information permits investors to understand the effect of fuel sales, which are affected by the volatility of fuel prices, on Sam's Club's net sales and operating income and on Sam's Club's and Walmart U.S.'s comparable sales for the periods presented.

Non-GAAP measures - adjusted EPS

The adjusted diluted earnings per share from continuing operations attributable to Walmart (Adjusted EPS) for the three- and nine-month periods ended October 31, 2017 is considered a non-GAAP financial measure under the SEC's rules because the Adjusted EPS for each such period excludes certain amounts not excluded in the diluted earnings per share from continuing operations attributable to Walmart calculated in accordance with GAAP (EPS) for the three- and nine-month periods ended October 31, 2017. Management believes that Adjusted EPS for the three- and nine-month periods ended October 31, 2017 is a meaningful measure to share with investors because that measure, which adjusts EPS for such periods for certain items recorded in such periods, is the measure that best allows comparison of the performance for the comparable periods. In addition, the measure affords investors a view of what management considers Walmart's core earnings performance for the three- and nine-month periods ended October 31, 2017 and also affords investors the ability to make a more informed assessment of such core earnings performance for the comparable periods.

We have calculated Adjusted EPS for the three and nine months ended October 31, 2017 by adjusting EPS for the following: (1) the loss on the early extinguishment of certain debt, (2) the FCPA accrual based on discussions with government agencies regarding the possible resolution of the FCPA matter, (3) the impairment of certain properties due to our decision to exit those properties in one of our international markets and, for the nine months ended October 31, 2017 only, (4) the gain on sale of Suburbia. Adjusted EPS for the three and nine months ended October 31, 2017 is a non-GAAP financial measure. The most directly comparable financial measure calculated in accordance with GAAP is EPS for the three and nine months ended October 31, 2017.

Non-GAAP measures - adjusted EPS

We have calculated Adjusted EPS for the nine months ended October 31, 2016 by adjusting EPS for the amount of the impact of the gain from the sale of Yihaodian in China. Adjusted EPS for the nine months ended October 31, 2016 is a non-GAAP financial measure. The most directly comparable financial measure calculated in accordance with GAAP is EPS for the nine months ended October 31, 2016.

Nine Months Ended October 31, 2016

Non-GAAP measures - adjusted EPS guidance

Adjusted EPS Guidance is considered a non-GAAP financial measure. Management believes that Adjusted EPS Guidance for Fiscal 2018 is a meaningful metric to share with investors because that metric, which adjusts EPS for certain items to be recorded in the period, is the metric that best allows comparison of the expected performance for Fiscal 2018 to the comparable prior period. In addition, the metric affords investors a view of what management is forecasting for Walmart's core earnings performance for Fiscal 2018 and also affords investors the ability to make a more informed assessment of the core earnings performance for the comparable period.

We have calculated Adjusted EPS Guidance for Fiscal 2018 by adjusting for the amount of the impact of: (1) the loss on the early extinguishment of certain debt, (2) the FCPA accrual based on discussions with government agencies regarding the possible resolution of the FCPA matter, (3) the gain on the sale of Suburbia in Mexico and (4) the impairment of certain properties due to our decision to exit those properties in one of our international markets.
